Section 1 – 2

DISCLAIMER

This book applies to the models stated on the rear cover, and explains the warranty and service of all factory installed equipment and options for those models. Due to the specification differences among models, you may find that some information may not be applicable to your vehicle. If you have any questions or concerns, please contact your Toyota Service Centre, they'll be glad to help you.

CONGRATULATIONS ON PURCHASING YOUR NEW TOYOTA!

CONGRATULATIONS!

No matter whether this is your first Toyota or you have previously owned a Toyota, you're sure to appreciate the safety, economy and superb engineering of your new vehicle.

In this Warranty and Service Book you'll find all the information you need to ensure your vehicle is maintained in the best possible condition. You'll also find an explanation of everything covered by your comprehensive 3 year/100,000 kilometre Toyota New Vehicle Warranty.

This Warranty and Service Book is also your vehicle's service record.

Nothing helps the resale value of your vehicle like a complete service history from your Authorised Toyota Service Centre. It demonstrates to any potential buyer that you've taken care of the vehicle, making it an invaluable asset for negotiating the best possible resale price. We suggest you keep this book in the glove compartment of your vehicle so your Toyota Service Centre can easily stamp it at every service.

Please take the time to read this Warranty and Service Book and, if you have any questions, contact your Toyota Service Centre. Happy motoring and thank you for choosing Toyota.

TOYOTA GENUINE
PARTS, SERVICE & ACCESSORIES

ALWAYS AT YOUR SERVICE YOUR TOYOTA SERVICE CENTRE

YOUR TOYOTA SERVICE CENTRE

Your Toyota Service Centre will play an integral part in the enjoyment of your new vehicle. They'll ensure it remains in excellent condition and that you enjoy years of trouble-free motoring. Along with servicing they can also help you with repairs, Toyota Genuine Accessories and additional products such as tyres, Toyota Genuine Lubricants, Fluids and Batteries. If you have any questions or concerns about your new vehicle please don't hesitate to contact them.

It's not just the dealer you bought your Toyota from who can help. You now have the entire national network of Toyota Service Centres at your service. So no matter where you are in Australia, you can rest easy knowing that you're never far away from expert assistance.

Always In The Know, Your Toyota Service Centre

Nobody knows a Toyota like a Toyota Trained Technician. They have the skills and specialised diagnostic equipment to maintain your Toyota to the highest possible standards. Ongoing education programs and direct hotlines to Toyota ensure they stay abreast of the latest information, developments and technology.

Your Toyota Service Centre uses only Toyota Genuine Parts that are manufactured to Toyota's exacting standards and come with a 12 month unlimited kilometre warranty. So servicing your vehicle at a Toyota Service Centre will help maintain its resale value.

Always There If You Need Them; Toyota Customer Relations

Should you ever need further assistance, simply call the Toyota Customer Relations Centre. Our Customer Relations Advisors can help you with information on our products, Toyota Service Centres, maintenance of your vehicle and any other questions you may have.

Please include your vehicle's details, which you'll find inside the front cover of this book.

TOYOTA GENUINE PARTS AND ACCESSORIES

KEEP THE FEELING WITH TOYOTA GENUINE PARTS & ACCESSORIES

Toyota Genuine Parts

To keep your Toyota 100% Genuine, always insist on Toyota Genuine Parts. They're manufactured to exacting standards so that they fit and perform perfectly. To ensure you never have to wait for Parts, your Toyota Service Centre is electronically linked to every parts distribution centre around Australia and receives daily deliveries from Toyota's National Warehouse.

IMPORTANT NOTICE

Non-Genuine Parts are not covered by your Toyota new vehicle warranty.

It's worth keeping in mind that if a non-genuine part is fitted to your vehicle, and that item causes any damage, the damage will not be covered by your Toyota New Vehicle Warranty.

Have your Toyota maintained at a Toyota Service Centre and you can rest easy knowing that your vehicle will be serviced by experts, and always be fitted with Toyota Genuine Parts. That way you keep your Toyota, and your warranty, in the very best condition.

Toyota Genuine Accessories

You can add even more personality and help protect your new vehicle with Toyota Genuine Accessories*. They're designed, tested and manufactured to strict Toyota standards so they offer the best possible performance and real peace of mind.

*All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for one year (unlimited kilometres). Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974.

TOYOTA NEW VEHICLE WARRANTY

TOYOTA NEW VEHICLE WARRANTY

Your Responsibilities

You must operate, maintain and care for your Toyota properly, in accordance with the instructions in this book and your vehicle's Owner's Manual. The best way to maintain your vehicle is through a Toyota Service Centre.

When you change your name and/or address, please complete the Owner Information Change Form and return it to Toyota. New owners should also complete this form. Forms are located at the back of this book.

If for some reason the odometer is changed, please have your Toyota Service Centre verify the date of the change and kilometres travelled on the form located at the back of this book.

Warranty Period - 3 years or 100,000 kilometres, whichever occurs first

The Toyota New Vehicle Warranty applies to all new Toyota vehicles sold in Australia. The Warranty Period is 3 years or 100,000 kilometres, whichever occurs first. The actual commencement date of the warranty is shown on the New Vehicle Information Statement on the inside front cover of this book. This will be the date the vehicle is either (A) delivered to its first owner, or (B) put into service by Toyota or a Toyota Dealer as a company or demonstrator vehicle.

Within the Warranty Period Toyota will repair or replace, at its discretion, any original equipment Toyota components found to be defective under normal use and operation in Australia.

Corrosion Perforation Warranty

You have peace of mind that your new Toyota is constructed to resist rust and corrosion. Any corrosion perforation (rust through) of any original body panel, will be repaired or replaced within the Corrosion Perforation Warranty period of 5 years or 100,000 kilometres, whichever occurs first, except in those instances listed under What Is Not Covered By Your Toyota New Vehicle Warranty in this Section.

For information on how to protect your Toyota from corrosion, see Corrosion Prevention and Appearance Care in the Owner's Manual.

TOYOTA NEW VEHICLE WARRANTY

Accessory Warranty

All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for one year (unlimited kilometres). Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974.

What is Covered by Your Toyota New Vehicle Warranty

The Difference Between a Warranty Repair and a Maintenance Service

A Warranty Repair is a repair performed during the Warranty Period to rectify any problem caused by faulty materials and/or workmanship at the time of new vehicle manufacture. It is normally free of charge.

Maintenance Services are the all-important regular inspections, adjustments and tune-ups. A service includes inspections, checks, changes of oils and fluids, and the replacement of normal wearing parts due to accumulated distance or time. These are competitively priced by your Toyota Service Centre.

Paint Defect and Surface Rust

Any surface rust or paint defects appearing under normal use will also be covered by the Warranty Period.

For information on how to protect your Toyota from corrosion, see Corrosion Prevention and Appearance Care in the Owner's Manual.

Towing the Vehicle

If during the Warranty Period a warranted part fails, and your vehicle has broken down or is unsafe to drive, towing of your vehicle to the nearest Toyota Service Centre is covered under the warranty. For further information, see Helpful Questions and Answers in this Section.

Battery

A defective original equipment battery will be replaced free of charge during the first 12 months of service, regardless of kilometres travelled. If the battery is found to be defective during the second 12 months of service, 50% of the replacement cost will be covered by the warranty.

TOYOTA NEW VEHICLE WARRANTY

LPG (Liquefied Petroleum Gas) - Where Fitted to Petrol Engine Models Only

Note that LPG only applies to petrol engine models only. Diesel engine vehicles cannot be converted to LPG.

Not all Toyota engines are certified for conversion to LPG, please contact your Service Advisor at your Toyota Service Centre for more information on LPG conversion.

If your vehicle is fitted with the Toyota Approved LPG System on an LPG Compatible Engine at the time of new vehicle purchase then the system carries the full 3 years or 100,000 kilometre warranty - the same as the vehicle. If the system is fitted after purchase, the warranty applies for the remainder of the new vehicle warranty or for 12 months, whichever is longer. Where a Toyota Approved LPG System is fitted on an LPG Compatible Engine, the engine is fully covered by your Toyota New Vehicle Warranty.

Where a Toyota Approved LPG System is fitted on an engine not certified by Toyota as LPG Compatible, damage caused to the vehicle by the LPG system is not covered by your Toyota New Vehicle Warranty.

Your Toyota New Vehicle Warranty may be affected where a non-Toyota Approved LPG System is fitted. Speak to the Service Advisor at your Toyota Service Centre for advice on the best system to suit your vehicle.

What is Not Covered by Your Toyota New Vehicle Warranty

- Tyres are not covered by the Toyota New Vehicle Warranty but by the tyre manufacturer's warranty. This does not mean you are deprived of any statutory rights in respect of these items. Your Toyota Service Centre will be able to help you if you have any questions on tyre warranty.
- Repairs and service adjustments required due to misuse (racing, overloading, etc), negligence, water ingress, improper adjustment or repairs by a non-Toyota repairer, alteration, tampering, disconnection, accident or modification are not covered.
- Defects caused by the fitment of non-Toyota-approved parts, accessories, add-on parts, improper or lack of maintenance are not covered.
- Scratches or surface rust caused by normal wear and tear, such as stone, or other chips, in the paint are not covered.
- Damage or breakage of the windscreen or glass caused by normal wear and tear, such as stone impacts are not covered.
- Environmental damage, such as hailstones, windstorms, flooding, fire, lightning or airborne fallout (chemicals, tree sap, bird and insect droppings, etc) are not covered.
- Incidentals such as phone calls, car rental charges, hotel bills, inconvenience or commercial loss are not covered.
- Damage caused by improper or lack of maintenance, or the use of fuels, oils, lubricants, coolants or fluids other than those specified in the Owner's Manual are not covered.
- Engine tune-ups, lubrication, replacement of expendable parts such as filters, coolant, spark plugs, fuses, brake pads, wiper blades are normal wear and tear parts, and are not considered warranty items.
- Normal noise, vibration, wear and tear, and deterioration such as discolouration, flaking, deformation or blur are not covered.
- Fitment of an LPG system could affect your Toyota New Vehicle Warranty. Please refer to What Is Covered By Your Toyota New Vehicle Warranty in this Section. For more information on LPG conversions speak to the Service Advisor at your Toyota Service Centre for advice on the best system to suit your vehicle.
- Petrol engines: Damage caused by the use of fuels with an Ethanol content greater than 10% (E10).
- Diesel engines: Damage caused by the use of biodiesel fuels greater than 5% (B5) and not conforming to the national diesel fuel standard EN590.

Additional note:

Toyota recommends that you only use high-quality fuels from commercially available sources whether diesel, biodiesel or petrol as fuel manufacturers take great care to deliver products that meet the required fuel standards. Vehicle damage that results from using substandard, non approved or privately blended fuels is not covered.

HELPFUL QUESTIONS AND ANSWERS

HELPFUL QUESTIONS AND ANSWERS

What should I do if there are any concerns with my new Toyota?

Because your vehicle is rigorously checked before it is delivered to you, it is highly unlikely you will find any problems with your new Toyota. Should, however, you have any concerns or questions regarding your new vehicle, bring it into any Toyota Service Centre for a Complimentary Inspection, the coupon is located in the front of this book.

Does my new Toyota need an oil change during the break-in period?

Your new Toyota is manufactured to precision tolerances and is rigorously checked and filled with high quality lubricants at the factory, as such the oil and filter will be changed at the first scheduled maintenance service, refer to the Maintenance Schedule in Section 2.

When do I get my Toyota serviced, and how do I arrange it?

Your Toyota should be serviced according to the Maintenance Schedule in Section 2 of this book. Additional Service Requirements apply for vehicles driven in harsh conditions or often used for towing heavy loads. The additional requirements are also described in Section 2 of this book. The Service Advisor at your Toyota Service Centre, can best advise you on the maintenance requirements to suit your driving conditions.

Who should service my Toyota?

Nobody knows a Toyota like a Toyota Trained Technician. They have the skills and specialised diagnostic equipment to maintain your Toyota to the highest possible standards. Ongoing education programs and direct hotlines to Toyota ensure they stay abreast of the latest information, developments and technologies. Without these tools and specialised knowledge your vehicle's condition could be misdiagnosed. This in turn could lead to warranty issues, especially if non-genuine parts are found to cause further mechanical problems.

The best way to be 100% sure your Toyota is maintained correctly is to trust it to the expert technicians at your Toyota Service Centre. Your Toyota Service Centre only uses Toyota Genuine Parts that are manufactured to Toyota's exacting standards and come with a 12 month unlimited kilometre warranty. That way you keep your Toyota, and your warranty, in the very best condition.

A full service history from a Toyota Service Centre will also enhance the resale value of your vehicle.

Who is the best person to talk to at the Toyota Service Centre?

Talk to your Service Advisor or Customer Relations Manager at your Toyota Service Centre. If they're unable to assist, ask to speak with the Service Manager.

HELPFUL QUESTIONS AND ANSWERS

Isn't Toyota Service Centre servicing more expensive?

This is one of the great myths of modern motoring. Your Toyota Service Centre provides excellent price competitive servicing and when you take into account the benefits of having Toyota Trained Technicians using Toyota Genuine Parts, there really is no comparison.

If I have any problems with my Toyota during the Warranty Period, what is the best way of getting my Toyota repaired?

Your Toyota New Vehicle Warranty provides comprehensive security against any unlikely faults in your new Toyota. However, if you need repairs, don't hesitate to call your Toyota Service Centre. Every Toyota Service Centre is committed to providing any Warranty Repairs you may need.

Does towing a caravan or trailer impact on my Toyota New Vehicle Warranty?

Your Toyota is engineered to deliver excellent towing performance. So, naturally towing a caravan or trailer is covered by the Toyota New Vehicle Warranty as long as you follow some 'common sense' procedures and don't overload your vehicle. The safest way to tow anything is to have your Toyota Service Centre fit Toyota Genuine towing equipment, and be a cautious, considerate driver. Remember, towing a caravan or trailer can have an adverse effect on the stability, safety, durability and operating economy of your vehicle.

If my vehicle is off the road being repaired, are out of pocket expenses such as accommodation, travel or commercial loss included in the Toyota New Vehicle Warranty?

The Toyota New Vehicle Warranty covers repairs or replacement of parts that are defective in materials or workmanship at the Toyota Service Centre premises. It does not cover claims for compensation.

What costs are not covered by the Toyota New Vehicle Warranty?

The costs of regular maintenance servicing are not part of the Warranty. Please see What Is Not Covered By Your Toyota New Vehicle Warranty in this Section.

What happens to the Toyota New Vehicle Warranty if I modify my vehicle?

The Toyota New Vehicle Warranty will continue to apply to original components of the vehicle providing they have not been altered or adjusted in any way. Also, the Toyota New Vehicle Warranty will continue to apply if your vehicle is fitted with Genuine Toyota Parts and Accessories approved for your model. Any modifications or damage resulting from the modifications to your vehicle, are not covered by your Toyota new vehicle warranty. For further information refer to What Is Covered By Your Toyota New Vehicle Warranty in this Section.

HELPFUL QUESTIONS AND ANSWERS

Are tyres covered by the Toyota New Vehicle Warranty?

Tyres are covered by the tyre manufacturer's warranty. See *What Is Not Covered By Your Toyota New Vehicle Warranty* in this Section.

I've just taken ownership of a used Toyota. What do I do?

Firstly, take your vehicle to a Toyota Service Centre to give it a comprehensive safety check. That way any potential problems can be rectified immediately. Then simply keep your vehicle serviced according to the Maintenance Schedule in this book.

Please ensure that your Service Centre provides updated information to Toyota Motor Corporation Australia via the 'Owner Information Change Form', at the back of this book.

Where do I go for service after the Warranty Period expires?

If you've had your Toyota serviced by your Toyota Service Centre for the length of its warranty you'll no doubt find that it is in excellent condition. So, why would you risk going elsewhere now? After all, only your Toyota Service Centre has the facilities and the qualified technicians to keep your Toyota in the best condition.

If I leave a long time between services, will this impact my Toyota New Vehicle Warranty?

You must service your vehicle according to the Maintenance Schedule in Section 2 of this book. Your Toyota New Vehicle Warranty does not cover damage caused by inadequate maintenance.

Service intervals are for a given distance or period of time, whichever occurs first.

Even if you don't drive far enough to cover the distance between service intervals, your Toyota should still be serviced according to the time period shown on the schedule. Regular maintenance is vital to maintain the performance and longevity of your vehicle.

If I have an accident, is my vehicle covered by the Toyota New Vehicle Warranty?

Unless the accident is caused by the failure of a warranted part, your vehicle is not covered.

What if I'm travelling and need a service or repair?

Whether it's a scheduled service or an unexpected repair, every Toyota Service Centre in Australia is authorised to service your Toyota. So you're free to use any one of them you choose.

HELPFUL QUESTIONS AND ANSWERS

What about using fuel containing Ethanol?

Toyota approves the use of petrol with an Ethanol content up to the limit of 10%.

Toyota warranty will not cover failures or faults due to operation on fuels with an Ethanol content greater than 10%.

What about using biodiesel fuels?

Toyota will endorse biodiesel fuel blends using FAME (Fatty Acid Methyl Esters that comply with either EN14214 or ASTM D6751 standards) of up to 5% volume concentration when mixed with conventional diesel fuel. The final product B5 (5% Biodiesel blend) at the pump must conform to the national Diesel Fuel Standard which is based on EN590.

Toyota warranty will not cover failures or faults due to operation on biodiesel fuels greater than a 5% (B5) blend.

Can my Toyota be converted to run on LPG? (Petrol Engine Models Only)

Refer to What Is Covered By Your Toyota New Vehicle Warranty in this Section for more information on LPG conversions.

Should I use fluid additives like coolants and fuel enhancers?

Your Toyota is engineered to perform at its best with Toyota Genuine Fluids and Lubricants. Further additives are not necessary.

If I have an accident can my insurance company insist on the repairer I use?

In the event that you are involved in an accident and your Toyota needs repairs, you can write to your insurance assessor insisting that only new Toyota Genuine Parts and Panels be used on your vehicle.

Toyota Extra Care provides a range of Warranty and Roadside Assist solutions to provide a worry free motoring experience.

You can select from a range of flexible plans to suit your particular circumstances.

EXTENDED WARRANTY†*

Whether your Toyota is new or used, Toyota Extra Care Extended Warranty can help protect you from big repair bills and rising costs for years to come.

- Offers new Toyota vehicle owners the opportunity to extend the original Toyota warranty
- Includes additional items such as towing, car hire and accommodation
- Choice of 1, 2 or 3 year extended warranty plans available
- No excess to pay.

If you have not purchased Extended Warranty at time of vehicle purchase, we can offer you Toyota Approved Warranty Extension which offer the same features and benefits. Toyota Approved Warranty Extension must be purchased prior to the expiry of your new vehicle warranty.

† Depending on how the vehicle is to be used, not all customers will be eligible to purchase Extended Warranty, eg. taxis, rental and courier vehicles. For details, please see your Toyota Dealer.

* Insured by Aioi Insurance Co. Ltd., (Aioi), a member of the Toyota Group of Companies. Toyota Insurance is a division of Aioi. A Product Disclosure Statement (PDS) is available from Toyota Insurance. You should consider the PDS before making a decision about this product.

ROADSIDE ASSIST

Toyota Extra Care Roadside Assist provides you with access to roadside assistance 24 hours a day, 7 days a week, 365 days a year, giving you total peace of mind. The range of benefits includes:

- Non-mechanical assistance with items such as changing tyres/flat battery, running out of fuel or help when you keys are lost or locked in your vehicle
- Transportation assistance including taxi fare in the event of a breakdown and your vehicle is immobilised
- Accident co-ordination services
- Access to vital medical and legal advice
- Personalised holiday planner
- Transferable to new owner, should you decide to sell your vehicle prior to the expiry of the plan.

Most importantly your car is covered no matter which family member is driving, 24 hours a day, every day of the year.

Choose between the 'Basic' plan or 'Plus' plan for additional benefits. Refer to the terms and conditions for details.

Toyota Insurance is here for you, providing reliable and cost-effective protection for the things that are important in your life – such as your motor vehicle.

MOTOR VEHICLE INSURANCE*

We understand that your vehicle is a critical part of your life. That's why Toyota Insurance's Comprehensive Motor Vehicle Policy is tailored specifically for Toyota customers. Benefits include:

- Replacement of your Toyota if it is a total loss (for Toyota vehicles up to 3 years old / 100,000 kms)
- Toyota Genuine parts guarantee and a lifetime workmanship guarantee on all repairs for Toyota vehicles (when repaired at a Toyota Approved Repairer for as long as you own the vehicle)
- 24 hours, 7 days a week access to Claims customer service

At Toyota Insurance we can also provide you with Finance Gap Insurance and Payment Protection Insurance.

* Insured by Aioi Insurance Co. Ltd., (Aioi), a member of the Toyota Group of Companies. Toyota Insurance is a division of Aioi. A Product Disclosure Statement (PDS) is available from Toyota Insurance. You should consider the PDS before making a decision about this product.

MAINTENANCE OF YOUR TOYOTA

MAINTENANCE OF YOUR TOYOTA

Things You Can Do When You Refuel

The best way to ensure years of trouble-free motoring is to develop a habit of regularly checking under the bonnet and around your Toyota. It only takes a few minutes when you're getting petrol, and early detection could save you a lot of money. If you're unsure how to carry out these checks, see your Owner's Manual or ask a Service Advisor at your Toyota Service Centre for a demonstration at your next service.

- Check engine oil, engine coolant, brake, clutch and windscreen washer fluid levels
- Check tyre pressure including spare (when cold)
- You should walk around your vehicle checking that all the lights, indicators and horn are operating correctly.
- Operate the air conditioner for at least 5 minutes per week to keep the system in optimum condition.

IMPORTANT NOTICE

To maintain the protection and efficiency of the cooling system, the Toyota Super Long Life Coolant must not be mixed with any other coolant or additive.

Use premixed genuine Toyota Super Long Life Coolant to fill the cooling system. Do not use alcohol type antifreeze or plain water alone.

Regular Toyota Service Centre Checks

In addition to the maintenance items listed for each service, your Toyota Service Centre will regularly check the operation of key systems. To ensure the continued efficiency and reliability of your vehicle to suit your particular driving conditions, your Toyota Service Centre may recommend additional maintenance such as:

- Replacement of worn wiper blades
- Brake system inspections
- Headlight realignments
- Wheel alignments
- Balance and rotation of wheels for even tyre wear
- Valve clearance adjustments
- Testing and re-gassing air conditioning

MAINTENANCE OF YOUR TOYOTA

How to Calculate the Correct Service Intervals

Your Toyota must be serviced according to the Maintenance Schedule in this book. Service intervals are for a given distance or period of time, whichever occurs first.

Even if you don't drive far enough to cover the distance between service intervals, your Toyota should still be serviced according to the time period shown on the schedule. Regular maintenance is vital to maintain the performance and longevity of your vehicle.

Lubricants and other items deteriorate over time as well as distance. Old or contaminated oil doesn't provide the engine with full protection and could cause serious engine damage.

5,000 km Lubrication Maintenance

This Land Cruiser model requires lubrication of the steering linkage every 5,000 km or 3 months, as described in the Maintenance Schedule. No Maintenance Record coupon is provided for this procedure. However, your Toyota Service Centre may stamp the Additional Service Record, at the end of this Section, when performing this, and/or any additional maintenance at this interval.

Additional Service Requirements

How and where you drive your Toyota determines the service requirements as much as the time or distance travelled. For example, if you are regularly towing heavy loads or driving in rough conditions, then more frequent maintenance is necessary, refer to Additional Service Requirements in this Section. The Service Advisor at your Toyota Service Centre can best advise you on the maintenance requirements, to suit your driving conditions.

Break-in Period Oil Change

Your new Toyota is manufactured to precision tolerances and rigorously checked and filled with high quality lubricants at the factory; as such the oil and filter does not need to be changed until the 20 000 km service.

Oil Thickening

Oil thickening is a phenomenon which occurs when particles of unburnt fuel and combustion by-products cause a build-up of carbon (soot) in the engine oil forming a jelly type substance. It can cause serious engine damage through oil starvation. It is essential that the engine oil is changed according to the Maintenance Schedule in this Section, at either the time or distance specified.

UNDERSTANDING THE MAINTENANCE SCHEDULE

Here is a guide to the codes defining what type of maintenance needs to be performed at each scheduled service. You'll find these marked on Maintenance Schedule pages.

- C = Clean
- I = Inspect and correct or replace as necessary
- L = Lubricate
- R = Replace
- T = Tighten

IMPORTANT NOTICES

Driving Through Deep Water, Mud or Sand

Items such as those following, require daily service when you drive through deep water, mud or sand:

- Brake lines and hoses
- Brake linings/drums and brake pads/discs
- Engine air cleaner filter
- Front and rear differential oil
- Steering linkage
- Transfer oil
- Transmission fluid or oil
- Front and rear wheel bearings
- Propeller shafts and drive shafts

Driving Through Water

Avoid driving through water that may enter the engine compartment. Water entering the engine compartment may enter the engine air intake and other components causing serious damage and or the engine to stop and not restart.

Should you need to drive through deep water, first ascertain that the depth of the water is not above the bottom of the front bumper bar and that the surface of the ground under the water is firm and even with no deep holes, then you can proceed slowly in low gear.

If the water level is deeper than above, it is advisable to wait until the water level has dropped or to find another crossing.

Water Flood

If your Toyota is caught in a flood and is submerged over the engine, do not start it or have it towed in a manner that may cause damage or unsafe operation. Water may have entered the engine, transmission, differential and other assemblies. Before your Toyota can be started and driven again, each assembly must be checked and serviced, otherwise, serious damage may occur.

For additional information on driving and towing your Toyota, see the vehicle's "Owner's Manual".

Engine oil ¹		R		R		R		R		R		R		R		R		R		R	
Engine oil filter		R		R		R		R		R		R		R		R		R		R	
Cooling and heater system ²																					
Engine coolant (Toyota Genuine Super LLC (Pink)) ³															R						
Exhaust pipes and mountings																					
Electrical																					
Battery																					
Fuel System																					
Water sediment accumulator																					
Engine air cleaner filter	Inspect and clean every 5 000 km or 3 months, replace every 30 000 km or 18 months.																				
Diesel smoke																					
Fuel tank cap, fuel lines and connections																					

¹ Use engine oil grade API: CF-4, CF, G-DLD I or ACEA B1 (API: CE or CD) may also be used.

² Check that the radiator and condenser are not blocked with leaves, dirt, or insects, and the hose connections for installation condition and corrosion.

³ Replace the engine coolant initially at 160,000 km, then every 80,000 km. Use Genuine Toyota Super Long Life Coolant (SLLC) or a similar high quality ethylene glycol based non-silicate, non-amine, non-nitrite, and non-borate coolant with long-life hybrid organic acid technology. (Coolant with long-life hybrid organic acid technology consists of the combination of low phosphates and organic acids.)

By stamping this form you confirm that you are an Authorised Toyota Service Centre and that all aspects of the Toyota Service using Toyota Genuine Parts have been completed.

MAINTENANCE FOR NORMAL OPERATING CONDITIONS

- IMPORTANT:** Check the Toyota on-line system for any outstanding manufacturer service campaigns.
- Lubricate knuckle, drag link and steering linkage
- Lubricate propeller shaft
- Tighten propeller shaft bolts
- Inspect the following:**
 - Drive belts
 - Battery
 - Water sediment accumulator
 - Engine air cleaner filter
 - Brake pads and discs
 - Brake fluid
 - Clutch fluid
 - Power steering fluid
 - Tyres and inflation pressures
 - Rotate and balance wheels (including spare)
 - Lights, horns, wipers and washers
 - Road test vehicle

ADDITIONAL SERVICE REQUIREMENTS

ADDITIONAL SERVICE REQUIREMENTS

How and where you drive your Toyota determines the service requirements as much as the time or distance travelled. For example, if you are regularly towing heavy loads or driving in rough conditions, then more regular maintenance is necessary. Discuss the typical sort of driving you'll be doing with your Toyota Service Advisor, they will advise how best to maintain your vehicle to keep it performing at its best.

If you're mostly driving your vehicle on sealed roads in moderate conditions, then you'll only need to service it according to the Maintenance Schedule. If you consistently put your vehicle through extreme conditions or drive in harsh environments, then your vehicle will require the extra maintenance as described in Additional Service Schedule.

These conditions could include any or all of the following:

- Driving on rough, muddy or snow-melted roads
- Driving on dusty roads
- Towing trailers, caravans or boats, or using a car top carrier
- Repeated short trips, less than 8 kilometres, in freezing conditions.
- Extensive idling and or low speed driving for long distance, such as taxis, couriers, etc.
- Continuous high speed driving (at speeds greater than 140 km/h) for over 2 hours

ADDITIONAL SERVICE REQUIREMENTS

(Odometer reading or months, whichever occurs first)	km x 1,000 months	5	10	15	20	25	30	35	40	45	50	55	60	65	70	75	80	85	90	95	100

OWNER INFORMATION CHANGE FORM

If your name or address has changed or you are the new owner of this Toyota, please complete the other side of this form and mail it in a stamped envelope to the following address:

Toyota Motor Corporation Australia Limited
Technical Service Operations
GPO Box 2006S
Melbourne 3001
Victoria

This will allow Toyota to make a record of your ownership of the vehicle, and to contact you with any important product or safety updates concerning your vehicle. Your information may also be used to send you material about Toyota products or services. If you do not wish to receive this information, please tick the box below. Toyota may provide your details to a mailing house for the purposes set out above. Please see the Privacy Statement at the front of this book for further information about Toyota and privacy.

Please tick this box if you do not wish to receive marketing material about our products and services.
